TO: Engineering and Architectural Organizations in the Metropolitan
Washington, D.C. Area

As part of the observance of Engineers and Architects Day, February 20, 1969, the D. C. Council of Engineering and Architectural Societies, consisting of 36 member organizations, sponsors a Professional Awards Program. These awards are intended to provide a tangible symbol of recognition of those individuals who have compiled a significant record of outstanding achievement or contributions in those fields of endeavor represented by the sponsoring organizations. The purpose of the Council is to enable the architectural, engineering, and allied technical organizations to render a more effective public service and to contribute to the advancement of those professions.

You are, therefore, invited to nominate a member(s) of your organization for special recognition during Engineers' Week. The Professional Awards Committee solicits your recommendations of candidates for the 1969 awards in engineering (research, development, utilization) and architecture (design and/or implementation). Four professional men and women, two architects, and two engineers will be honored by the D.C. Council as part of the Nationwide observance of Engineers' Week.

Nominations must be received by the Awards Committee no later than February 14, 1969 to allow adequate time for review and selection. Enclosed are sheets outlining the criteria for nominations. Additional copies of the enclosed nomination sheets can be reproduced, if needed.

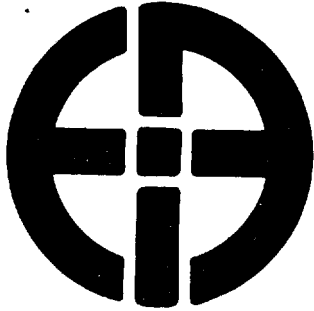

The award to each of the four winners will include a suitably engraved gold key, known as the National Capital Award, and an Award Certificate both to be presented at a luncheon to be held on Thursday, February 20, 1969 at the Mayflower Hotel.

Sincerely yours,

Carl C. Hansen
General Chairman

P.S. We must apologize for the late start and hope it will not seriously limit your participation in the program.

Dear Mr. Spurling:

Thank you for your invitation to nominate members
of this Agency for special recognition during Engineers'
Week.

After careful consideration we have determined
that the Agency has no suitable candidates to propose
either for the award in engineering or for architecture.
We hope to nominate some of our outstanding employees
for these awards in the future.

The D. C. Council of Engineering and Architectural
Societies is to be commended for its program of special
recognition in these fields.

Sincerely,
